Fax: 208-960-0745

ABOUT ZIO

Zio is a complete monitoring solution that delivers superior clinical accuracy while reducing the cost of care.

Monitors require ZERO electrode or patient changes, resulting in 98% patient compliance.¹

Continuous and uninterrupted monitoring for up to 14 days means that 99% of the recorded data is usable.¹

Zio monitors deliver higher diagnostic yield compared to conventional monitors allowing you to diagnose faster, so you can treat faster.^{1,2}

ZIO AT: HIGH RISK PATIENTS

Mobile cardiac telemetry with continuous recording.

- Use restricted to cardiology

ZIO XT: LOW RISK PATIENTS

Extended continuous ambulatory monitoring with asynchronous reporting.

Common Indications³

Palpitations	Syncope
Lightheadedness	Dizziness
Tachycardia	Dyspnea

1. Data on file. iRhythm Technologies, 2020.
